1.0 HISTORICAL DOCUMENTATION OF MILL

1.1 HISTORICAL SUMMARY OF ATLANTIC MILL

The Atlantic Mill was located 50 yards from the Franklin Mill. Reilly and Johnson opened the mill in August of 1863 (*Sacramento Daily Union* 1863:4), at which point it contained two 12-foot-diameter arrastras that crushed three tons of ore per day (Science Applications International Agency, Technology Services Company [SAIA TSC] 1994:130; *Gold Hill Daily News* 1863:3). Gray & Cook leased the mill later that year (*Gold Hill Daily News* 1863:3). In 1865, Treglone & Co. owned the mill while G. W. Cook served as superintendent. The water-powered mill had two arrastras that worked ore from the Gray & Cook Mine (*Gold Hill Daily News* 1865:3; Ansari 1989:91).

The following tables contain the full title history of the Atlantic Mill. After 1864, the Franklin Mill shown as the two properties may have been joined together at this time (SAIA TSC 1993:102-104).

2.9 Atlantic Mill

The Atlantic Mill was located in the SW $\frac{1}{4}$ of Section 34, T16N, R21E. According to Kelly's 1863 Directory, the Atlantic Mill was located about 50 yards from the Franklin Mill (A-4;A008135). The current tax assessor number is 16-151-20. The Atlantic Mill is shown on the Preliminary Location Map of the Carson River Millsites (Map 4). This mill should not be confused with the Bassett Mill located in Seven Mile Canyon, which was also referred to as the Atlantic Mill, or the Atlanta Mill which was located in lower Gold Canyon.

The title history from 1860 to 1868 is derived primarily from relevant portions of the Franklin Mill section of the Dangberg abstract. On October 29, 1860, A. Mesick claimed to have located 4.41 acres (K-2). Almost two years later, on August 18, 1862, A. Mesick conveyed to S.E. Kiler a 1/2 interest in one acre and a quartz mill (K-1).

Kelly's 1863 Directory described the Atlantic Mill as having 2 arastras, and crushing about 3 tons of rock per day. A. Mesick, S. E. Kiler and G. Blust were identified as the owners (A-4;A008135).

On May 30, 1863, A. Mesick obtained a survey of his claim to 4.41 acres, which included the Atlantic Mill arastras (K-2). About a month later, on July 3, 1863, S. E. Kiler conveyed his interest in the one acre and mill back to Mesick (K-3).

On March 19, 1864, A. Mesick conveyed the 4.41 acres, Atlantic Mill and arastras to Mary Tregloan and Martha A. Caldwell (K-4). Within a month, on April 11, 1864, Martha Caldwell and Edwin Caldwell conveyed a 1/4 interest in the Franklin Mill and millsite to W.A. Hoyt (K-5). On the same day, Hoyt conveyed a 1/3 interest in the Franklin mill and millsite back to Martha H. Caldwell (K-6). These and subsequent conveyances of the Franklin Millsite probably included the Atlantic Mill and millsite, because of the proximity of the Atlantic and Franklin Mills.

On October 6, 1864, John Tregloan and Mary Tregloan conveyed a 1/2 interest in the Franklin Mill and millsite to William Johns (K-7). On May 12, 1865, William Johns conveyed to William Sharon a 1/2 interest in the Franklin Mill and millsite, which also was described as a 1/2 interest in the Water Tower Mill, millsite and land belonging to the Franklin Mill Company (K-8).

The June 5, 1865 edition of the *Gold Hill News* reported that the Atlantic Mill was located in Lyon County and was owned by Treglone & Co. It had two arastras and crushed 3 tons per day (B-4;A008572).

On October 3, 1865, Edwin Caldwell and Martha H. Caldwell conveyed a 1/3 interest in the Franklin "Mills" and millsite to Charles M. Cornell (K-9). On March 2, 1866, Charles M. Cornell agreed to sell a 1/3 interest in the "mills" and millsite to E. K. Dodge upon payment of a note (K-10). One week later, on March 9, 1866, E. K. Dodge conveyed a 1/3 interest in the Franklin Mill and millsite to William Sharon (K-11).

On September 7, 1866, William A. Hoyt conveyed the Franklin Mill property to William Sharon (K-12). On February 8, 1867, Samuel A. Chapin conveyed the millsite and water privilege to William Sharon (K-13).

On May 7, 1868, William Sharon conveyed the Franklin Mill and millsite to the Union Mill and Mining Company (K-14). On October 12, 1868, J. D. Fry conveyed the mill and millsite to the Union Mill and Mining Company (K-15).

On December 18, 1869, the State of Nevada issued a patent to William Sharon for SW $\frac{1}{4}$ Section 34, which encompassed the Atlantic Millsite (K-16). There is no record of a subsequent conveyance of this property by Sharon. The Franklin Millsite was assessed to the Union Mill and Mining Company in 1907 and 1912.

On February 29, 1916, the trustees of the Union Mill and Mining Company agreed to sell land encompassing the Atlantic Millsite to Fred Eden (K-17). Two days later, on March 1, 1916, Fred Eden and Laura F. Eden assigned the sales agreement to Alexander Logie (K-17). By the end of the year, on November 29, 1916, the trustees conveyed the land to Logie (K-17) (K-18).

Alexander Logie was assessed for the Franklin Millsite in 1919, 1927, 1928, 1936, 1939, and 1942. M. Serani and M. Sorani were assessed for the land encompassing the millsite in 1919 and 1920, respectively.

In 1939; Alexander Logie conveyed the Franklin Millsite area to Jo. H. Beamer and Randall Larson (copy not ordered). In 1943, as the result of a lawsuit, Louise Scott Beamer conveyed the Franklin Millsite area back to the Estate of Alexander Logie (copy not ordered). In 1950, 200 acres encompassing the Atlantic Millsite were assessed to Alexander Logie.

On March 7, 1968, the administrator of the Estate of Alexander Logie conveyed the Franklin Millsite (described as the SW $\frac{1}{4}$ of Section 34 and the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 34, which included the Atlantic Millsite) to David Lantry and John Mongolo (K-19). Four days later, on March 11, 1968, Lantry and Mongolo conveyed the millsite to Lantry and Andrew Julius Bunkowski (K-20).

On January 23, 1976, David L. Lantry, Andrew Julius Bunkowski, and Rose Marie Bunkowski conveyed the Franklin Millsite to Carson River Development Company (copy not requested). On October 29, 1979, Carson River Development Company conveyed the millsite to Tibor W. Fejer and Lorin O. Montgomery (K-21). On June 14, 1985, Fejer and Montgomery conveyed the millsite to John C. Serpa (K-22). On that same day, Diane K. Serpa conveyed the millsite to John C. Serpa (K-23).

such property? It is a nuisance where it stands and should be removed by the most expeditious legal means, and no other." When our city authorities find out what is the matter we hope that the wrong, whatever it is, may be righted "by the most expeditious legal means, and no other." Such is our prayer. Let our authorities do nothing except by the "most expeditious legal means." Let there be no irregular proceedings against said building. The days of the "Vigilantes" are past. Its being advertised "to rent" is of course against the building; yet keep cool and proceed only by the "most expeditious legal means."

FROM LONE PINE.—We were yesterday shown some very fine specimens of ore from Lone Pine, Inyo County, California. The majority of the specimens are argentiferous galena, but very rich in silver—so rich as to wholly destroy the regular galena crystallization. Among other curious mineral specimens was a large piece of asbestos, so pure that it could be twisted into strings. This mineral has been tried by the Mexicans as a lining (mixed with clay) for furnaces, but it does not seem to answer the intended purpose as well as bone ashes, which is now generally used.

Upon the heading of "Pretty Sight" an evening cotemporary says: "What is? Why, a ship under full sail, or (we'll slip the sailor's second), a train of cars in motion, or—next to 'em—the stages of Wells, Fargo & Co.—three six-horses coaches—rolling out of Virginia at 8 o'clock every evening. They prance forth fine. You talk noise. We would wish the president author of the above to soak his head for a month or two. They prance forth fine. Good heavens!

IN OPERATION.—At present we do not know of an idle mill in the State. All are at work, and there is ore for all. Many of our leading mills are increasing their capacity, and on every side are to be seen signs of the prosperity of our young State. It is not only in mills, but in every branch of trade and industry, that we see improvements throughout the city. Business houses are being enlarged and refitted, and new houses are daily being opened.

THE GOLD HILL FAIR.—The Fair in Gold Hill, given by the ladies of St. Patrick's Church, is proving to be a most successful venture. The hall is crowded nightly, and there can be but little doubt that a sum sufficient to liquidate all the debts standing against the church edifice will be realized. It will continue during the week and will wind up in a grand ball next Monday night. Let our people go down and assist their neighbors of Gold Hill.

BLACK CROSS.—The attendance at the Crook last night was good, and a high old performance was given. All kinds of fun—jokes, dances, juggling, acts, and farces. No restriction upon anybody; lager beer drinking and smoking allowed, and all given the liberty of moving about and singing and doing pretty much as they please, so long as they do not interfere with the enjoyment of others. The bill for to-night is an excellent one.

INSURE AGAINST ACCIDENTS.—Go to Sprague, Gould & Curry office, and be insured against accidents. In case you are hurt or being insured you get a liberal weekly allowance until you are able to work. This is better than insuring your life, for once you are dead the money of the insurance companies will be of mighty little use to you. They can give you no checks that will pay for grub in that "bourne from whence no traveler returns" to curse his booter.

LIBERTY HOSE CO. NO. 1.—At the annual election of officers of Liberty Hose Company No. 1 of Gold Hill, held at their hall last night before last, the following named gentlemen were chosen as officers for the ensuing year: A. A. Putnam, Foreman; S. A. Holley, First Assistant; S. A. Winterbauer,

DICK CROOK.—The Crook still keeps on the even tenor of its way with a large troupe of melodrama actors and actresses, introducing new features almost nightly. The place is devoted to fun and all is free and easy throughout. A fine bill will be presented this evening.

NEW BOILERS.—The Yellow Jacket Company have just received and will at once set up two new boilers, each 16 feet in length by 54 inches in diameter. Each boiler contains 50 three-inch tubes. The boilers were manufactured at the Pioneer Boiler Works.

The omnibus line, plying between this city and Gold Hill is being well patronized this summer. Our people all seem to have made up their minds that it is much cheaper to pay two bits for a ride than to walk during this hot weather.

Nor So.—There was a report on the streets last evening that a miner in the Chollar-lot had been caved on and fatally injured. Upon tracing the matter up we found that a workman in the mine had sprained himself, so this—no smashing of bones!

OVERHAULING.—The Kentuck Company are engaged in overhauling their hoisting works. They are putting in new reels, repairing their shaft, and putting everything in order for a long siege of heavy work.

LOW FARE.—The old line of Dayton stages leaving that town in the morning charges but four bits to this city and intermediate points. Nobody can complain of this as extortionable.

Our markets are well supplied with apples, peaches, plums, pears, grapes and every other kind of fruit now in season—watermelons and muskmelons are also plenty.

FOR SUNDAY ACCOMMODATION.—After this date the stage office of Wells, Fargo & Co. will be open on Sundays from 2 to 4 o'clock P. M., for the accommodation of those wishing to secure seats in the stages to California.

The Corro Oordo mines are still well spoken of. Parties who left this city a few weeks since to look after interests in various leads in that section express themselves as being perfectly satisfied with their mines.

FAMOUS teams, loaded with merchandise for our business houses, continue to throng our streets. Our merchants appear to be determined to take time by the forelock this season.

TELEGRAPHIC.—There are messages at the Telegraph office for the following persons: Miguel Kelly and C. Morales or Lottio Morales.

NEW APPOINTMENT.—Mr. A. Baker has been appointed route agent for the western division of the Overland Stage Company's line.

Large quantities of wood are now coming into the city from Washoe. Ton cords to one team is a load by no means unusual.

All our mills are now at work day and night and we hear no complaint of a scarcity of flour.

Good Sport.—There is said to be very good shooting just now about Peavine—the game being grouse and sage hens.
